

# The SilverShield

By  **SILVERCREST**<sup>®</sup>

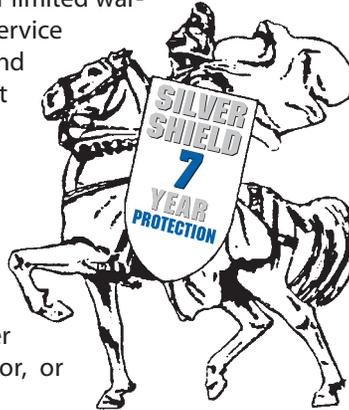

*“Customer Protection for 7 Full Years”*

## Included Protection.

Coverage for originally installed or included systems and appliances from Silvercrest or the retailer is included in the price of your home. Silvercrest is proud of the quality we build into every home, and we put that in writing with an included 7-year limited warranty at no extra cost to you.\* If you were to buy extended service contracts for all of these items individually, you could spend hundreds of dollars extra for the same protection you receive at no extra cost with the Silvercrest SilverShield.

## No Surprises. No Big Repair Bills.

You won't need to worry about your heating or air conditioning, your plumbing system, your electrical system, or any originally installed major appliance covered under the Silvercrest SilverShield Plan. Except for a normal deductible, the SilverShield pays the cost of repairs, including parts and labor, or covered items.

## Fast, Convenient Service.

Trained and experienced claims representatives are standing by, ready to assist you. In years 2 through 7, just call the toll-free claims number if you need service or have a claim. You will receive prompt, courteous attention as well as fast, dependable service. Your complete satisfaction is our primary goal.

## It Could Increase the Resale Value Of Your Home.

If you sell your home within the term of the coverage, the SilverShield allows you to pass along to the new owners the same freedom from worrying about big repair bills that you enjoyed. So your home could be valued higher and sold faster than an “uncovered” home.

## REAL Coverage.

Don't be fooled by other manufacturer's warranties! Make sure you review what is actually covered by those programs, and then compare those coverages with the Silvercrest SilverShield. You will realize the broad coverage the SilverShield provides, and enjoy worry-free living in your new home.

\*Note: This warranty is a one-year limited warranty from the home manufacturer to the homeowner and separate six-year extended warranty for years 2 through 7, which is provided by an independent third-party administrator, American Modern. Deductible applies; see warranty terms and conditions for details). The SilverShield Plan is standard and applies only on homes built exclusively by the Corona, Calif. Division of Silvercrest W.H.C.
