

Hello Everyone at MaWilliams,

Here is a great big THANK YOU from Ron and Cathy Miller.

Fergy you did a great job keeping us on track and dealing with all the emotional ups and downs. The upgrades and many many changes we worked out together made our home exactly how we wanted it. Thank you for your time and expertise in getting this job done.

I am sure keeping your patience with the two of us was a major task, one you may never forget.

Claudia thank you for working out the details for the long haul to Big River. And getting us Bruce and his team for the set up.

Bruce thank you for a job well done and running a great crew. They all worked very hard to get it done in such a short time. You must be proud.

This is our vacation home and we dread the end of each visit because we enjoy it so much. Our family now has a wonderful place to go and we are so grateful for that. Maybe someday it will be more than a vacation home for Ron & me. I will try to send some pictures now that the furniture is in and it looks like a home.

Best regards

Cathy and Ron Miller
